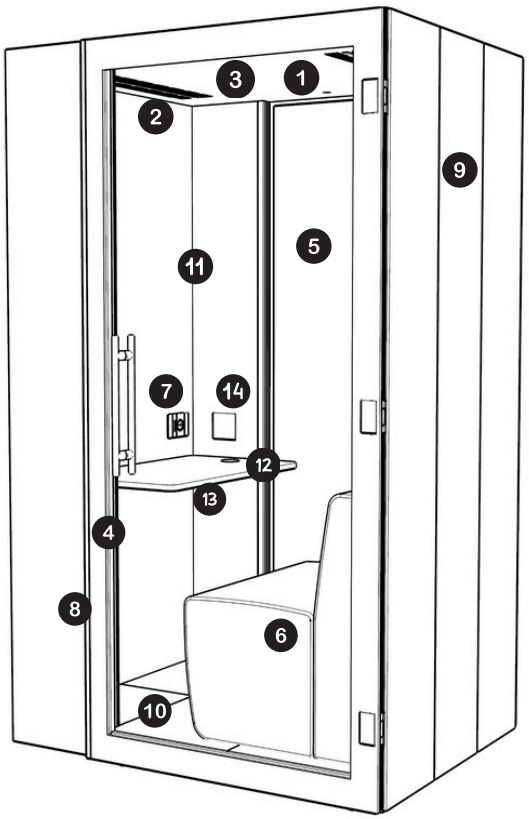
be.**comfort+**

be.comfort+

be.**comfort+** is an acoustic pod designed to provide a spacious, comfortable, and private environment for individual work, phone calls, and video conferences. Its generous interior and flexible seating configuration offer greater freedom of movement, making it ideal for focused work, meetings, and longer periods of use in comfort.

Equipped with warm LED lighting and an efficient ventilation system to maintain a comfortable environment, be.comfort also features integrated power outlets, USB charging, and a wireless charger for convenient access to power. Acoustic panels and a magnetic latch provide a high level of sound isolation and privacy, while the comfortable seating and dedicated work desk create an ergonomic setup suitable for extended periods of work.



EXPERIENCE THE FREEDOM OF CHOOSING HOW AND WHERE YOU WORK!
